SKILLS

- I have been building my own homelab over the years, and have learned many skills, such as:
 - **Hardware**
 - I own a Dell Poweredge R520 that I got from a thrift store and refurbished and repurposed into a Proxmox server.
 - **Networks**
 - Tunnels
 - Reverse proxies
 - VPN
 - VLAN
 - DNS
 - **Virtualization and Containers**
 - Seafile (File Syncing)
 - TrueNAS (Storage backup)
 - Game servers (Minecraft, MMOs)
 - Cloudflared (Tunnels)
 - Gitea (Private code repositories)
 - Immich (Self hosted image storage)
 - Linux (For testing and experimenting)
 - Arch
 - Debian
 - Kali
 - Ubuntu
 - Kubuntu
 - NixOS

- **Databases**

- I maintain multiple MySQL databases for:
 - Game servers to track items, players, currencies, flags, etc.
 - Login and account information for users on websites I host

- **Troubleshooting**

- **Problem Solving**

EXPERIENCE

Starbucks

2021-Present

Neighborhood Thrift

2012-2014

Electronics warehouse specialist

My duties included the intake, testing, repair and refurbishment of donated electronic devices such as game consoles, PCs, TVs, etc.

Zorktech

2010-2012

Tech Support/PC Technician

I would go to peoples homes and diagnose, troubleshoot, and repair their home systems, including PCs, printers, servers, consoles, networks, etc.
